

CalGames 2009

Robot on robot action!
As exciting as any sporting event!

*A competition based on the
FIRST Robotics challenge "LUNACY"*

Go to www.wrrf.org for more information

Qualifying matches
8:30am – 12:30pm
Playoff matches
1:30 pm – 4:00 pm
Award Ceremony
4:30 pm

- Full-sized robots built by high school student teams and weighing as much as 140 lbs.
- Capable of speeds in excess of 15 feet per second
- Robots competing in teams of three on three. Robots attempt to place "moon rocks" in opposing teams trailers – while maneuvering in simulated low lunar gravity.

Brought to you by the Western Regional Robotics Forum in synergy with FIRST – "For Inspiration and Recognition of Science and Technology" robotics programs
